

MiSecure MDR Solution

In the 2023-24 School Aid Fund, section 97g allocated \$9,000,000 to provide a statewide Security Operations Center (SOC) and Managed Detection and Response (MDR) services to ISDs, local districts and PSAs in the State of Michigan. Funding was secured through Ingham ISD which worked with the Michigan Association of Intermediate School Administrators (MAISA) to establish this SOC. The Michigan Education Technology Leaders (METL) had previously formed the MiSecure Cybersecurity Task Force and this team was utilized to form the new MiSecure Operations Team.

The MiSecure Operations Team is dedicated to providing advocacy and leadership around cybersecurity tools and practices for all Michigan schools. As directed in the 97g language, MiSecure has now selected and is making available MDR software for all critical servers in every ISD, local district and PSA. In order to participate, ISDs must fill out this survey.

This survey should be filled out only one time by each ISD. If, after filling out the survey, you have changes or updates, you need to reach out to misecure@gomaisa.org before submitting a second survey.

Before filling out the survey, make sure you understand the program requirements. Questions are being answered and maintained in our FAQ, available on the <http://www.misecure.org/> website. In particular, understand that licenses are only available to "critical technology infrastructure" which the MiSecure team understands to mean "servers."

Make sure you have the total number of new MDR licenses, the total number of credit requests (and for which products), and the total number of upgrades from CrowdStrike EDR (if any). These numbers need to include all local districts and PSAs. Exceptions can be noted in the survey.

Understand that each ISD will receive a unique Customer ID (CID) to manage the cybersecurity for all servers in the ISD, local districts and PSAs. A local district or PSA may elect to participate on their own, but will need to work with MiSecure to purchase their own CID.

Billing Contact (Master Billing Account)

The following information is needed to create a district level master billing account for invoicing the purchase of any **ADDITIONAL** licenses/services you may want in the future. This should be the person (or generic email) in your ISD that receives invoices for goods and services. You will **NOT** be billed for your MiSecure MDR licenses. Your ISD will *only* be billed in the future if additional licenses or features are requested.

7. ISD Domain Name *

8. ISD Street Address *

9. ISD City *

10. ISD Zip Code *

11. Billing Point of Contact First Name *

12. Billing Point of Contact Last Name *

13. Billing Point of Contact Phone *

14. Billing Point of Contact Email Address *

Applicant Feedback

19. Is everyone included? *

Mark only one oval.

I have made every effort to inform all of my local districts & PSAs of the program and have included their needs here

I was unable to gather information from the following local district/PSA (list below)

20. ONLY if you chose the 2nd option above: List any local district and/or PSA that you were unable to respond to and, if known, a point of contact name and email address

In this section, you'll request the number of new CrowdStrike Falcon Complete MDR licenses, the number of credits for existing MDR licenses already purchased and whether you need an upgrade from CrowdStrike EDR

21. Enter the number of new CrowdStrike Falcon Complete MDR licenses needed by the ISD, local districts and PSAs *

* Enter 0 if you are not participating or only applying for credits/upgrades

* Licenses can only be installed on critical servers (see the website for more information)

22. Our ISD already has the following MDR solution(s) in place. The solutions listed below are preapproved for credit but only if the contract is in place prior to the program start date. If a different product is in use, the MiSecure Operations Team can review it to determine whether it qualifies for credit. It must meet the features specified on the website. You'll provide a total number of credit requests in the next question. Check all products reflected in that total number. *

Check all that apply.

- CrowdStrike Falcon Complete
- CrowdStrike (MS-ISAC's CIS-ESS implementation)
- SentinelOne Vigilance MDR
- SentinelOne with MDR Management
- CrowdStrike with MDR Management
- Please contact me. I have an solution in place that is not listed above.
- We are not applying for any credits

23. Enter the number of credit requests you are making for the above products. *
- * Enter 0 if you are not participating or only applying for MDR licenses/upgrades
- * Only products installed on servers qualify for a credit
- * A copy of all current contract term/rate page(s) will need to be sent to bsoggs@gomaisa.org
-

24. I have a Crowdstrike EDR solution in place and am interested in having it upgraded to the MiSecure Crowdstrike MDR solution.

Check all that apply.

Please contact me

ISD participation agreements

25. I understand that our ISD CID will be accessible to the MiSecure Operations Team *

Mark only one oval.

Yes

No

26. If applying for credits toward an existing Crowdstrike Falcon Complete MDR, I agree to make our existing CIDs accessible to the MiSecure Operations Team *

Mark only one oval.

Yes

No

We are not applying for credits for existing Crowdstrike Falcon Complete MDR licenses

27. If applying for credits for an existing contract, I agree to provide reporting and/or log data to the MiSecure Operations Team as requested *

Yes

No

We are not applying for credits

- 28. Do you anticipate needing/purchasing additional MDR/EDR licenses for servers/systems/devices not covered by scope of this project? Responding yes to this question **does not commit** you to **or prevent** future purchases, this is for initial planning purposes. *

Mark only one oval.

- Yes Skip to question 29
- No
- Undecided

Additional - Non-Critical Licenses

The answer provided in this section is **not a commitment** or official request to buy licenses. The data collected will be used by MiSecure to negotiate statewide pricing for additional licenses in the future.

- 29. How many additional **MDR** licenses do you anticipate purchasing in the future for other servers/systems/devices that don't qualify for MiSecure funding? *An estimate is fine, enter 0 if none* *

- 30. How many additional **EDR** licenses do you anticipate purchasing in the future for other servers/systems/devices? *An estimate is fine, enter 0 if none* *
